

- FIRST SHARIA-COMPLIANT END-TO-END REFINANCE PLATFORM IN THE GCC

The **first** Sharia-compliant refinance marketplace for the UAE's **\$149B** debt market.

One platform to aggregate, convert, and settle debt —
fully digital, Sharia-compliant, lender-agnostic.

The logo for OLFi, featuring the letters 'OLFi' in a white, sans-serif font. The 'i' has a small teal flower-like icon above it. The logo is centered within a dark teal rounded square, which is itself centered within a larger dark teal circle.

PRE-SEED · AED 5M

UAE · DIFC · APRIL 2026

FINTECH · ISLAMIC FINANCE · OPEN BANKING

THE PROBLEM

UAE residents are trapped in fragmented, costly debt.

A typical salaried resident carries 3–5 liabilities. Refinancing today is manual, slow, single-bank, and interest-based.

Manual paperwork

Salary certificates, liability letters, physical cheques. 7–10 working-day turnaround per bank.

Fragmented liabilities

No single view across lenders. Users juggle 3–5 separate EMI schedules with no consolidated picture.

Interest-based by default

80–85% of UAE consumer debt is riba-based. Muslim borrowers have no neutral, digital route to Sharia-compliant finance.

Single-bank opacity

Banks only sell their own products. No lender-agnostic comparison. Hidden flat-vs-reducing rate structures cost borrowers thousands.

Comparison sites don't execute

YallaCompare, MyMoneySouq surface rates — but do not settle old debt, generate contracts, or manage repayment.

No post-refinance support

After a buyout, users are on their own — no dashboard, no alerts, no credit-score tracking. The cycle repeats.

60%+

of UAE residents hold at least one active credit facility

3–5

average liabilities per salaried resident

7–10

working days for a traditional refinance

<30 min

OLFI's end-to-end digital refinance flow

MARKET OPPORTUNITY

A \$149B market with no digital Sharia-compliant rail.

TAM

\$149B

Total UAE consumer and household liabilities — personal loans, auto, credit cards. ~25% of UAE GDP. Growing YoY.

SAM

\$31.29B

Refinanceable stressed debt — SAM is 21% of TAM. ~1.05M salaried multi-debt users. Verified from financial model.

SOM

\$1.00B

SOM at 3.2% of SAM — modelled 3-year flow.

1M+

Addressable salaried, multi-debt UAE residents in our Phase 1 salary band (AED 8K–30K/mo)

80–85%

of UAE consumer debt is still conventional interest-based — a structural under-supply of Sharia-compliant refinancing

\$50B+

KSA household debt — identical structural problem, accessible via the Saudi Open Banking Sandbox in Phase 2

CBUAE Open Banking 2025

Regulatory tailwind: UAE's open banking framework now live — enables real-time account aggregation and consent-based data sharing. Timing is critical.

THE SOLUTION

One platform. From debt chaos to clarity.

- ~~Fragmented liabilities across 3–5 banks~~
Unified debt dashboard via open banking — one number, one plan
- ~~Conventional interest-based debt~~
Sharia-compliant conversion — certified Murābaḥa, Tawarruq, Ijāra
- ~~7–10-day manual bank process~~
Sub-30-minute digital flow — OCR, e-sign, automated settlement
- ~~Single-bank opaque offers~~
Multi-lender marketplace — AI-ranked, transparent, instantly actionable

OLFI is a neutral intermediary. We never issue, originate, or hold debt. Revenue comes from lender success fees when a refinance closes through our rail.

Your debts · 3 active

Emirates NBD Personal Loan Interest rate: 21.5% p.a. · AED 85,000	High
FAB Credit Card Interest rate: 24% p.a. · AED 22,000	Moderate
ADIB Auto Finance Profit rate: 6.5% p.a. · AED 38,000	Good

HOW IT WORKS

From first tap to funded — in under 30 minutes.

01

Debt
Aggregation

User connects accounts via open-banking consent (Lean / Tarabut). OLFI imports all active liabilities, rates, and payment schedules instantly.

OPEN BANKING

02

AI Analysis

The OLFI AI engine scores the portfolio, generates an OLFI Score, and proposes restructuring — including certified Sharia conversion where eligible.

AECB + AI

03

Marketplace
Offers

Partner Islamic and conventional lenders present real profit-rate offers. User compares by cost, tenure, monthly instalment, or Sharia compliance.

MULTI-LENDER

04

Digital
Settlement

E-contracts generated and digitally signed. OLFI coordinates the old-debt buyout on the user's behalf. Funds flow lender-to-lender — OLFI holds nothing.

E-CONTRACTS

05

Unified
Repayment

New payment tracked in-app with live credit-score monitoring, deferral options, and better-offer alerts. User stays on OLFI for the full lifecycle.

RETENTION LOOP

PRODUCT

Every feature earns its place.

Unified Debt Dashboard

All personal loans, credit cards, auto and BNPL consolidated in one real-time view — balances, rates, due dates, and total exposure. Powered by open banking. No manual entry.

LEAN TECHNOLOGIES

TARABUT GATEWAY

AECB API

Sharia Refinance Engine

Routes eligible loans into AAOIFI-certified Murābaḥa, Tawarruq, and Ijāra structures. Islamic products are native, not a filter.

OLFI Score

Proprietary credit-health score combining AECB bureau data, open-banking cash flows, and behavioural signals. Unlocks better pricing for thin-file borrowers.

Digital Settlement

OCR document capture and e-signing eliminate branch visits. OLFI executes the old-debt buyout end-to-end. Funds flow lender-to-lender.

Smart Alerts

Due-date reminders, better-offer notifications, cash-flow warnings, and AECB score change alerts. Continuous engagement without friction.

WHY NOW

Four tailwinds converging in 2025–2026.

UAE HOUSEHOLD DEBT

\$149B

at 25% of GDP —
growing, overleveraged,
and structurally
underserved.

CATEGORY CREATION

No Sharia-compliant, lender-agnostic, end-to-end digital refinance platform exists in the GCC.

OLFI is not entering a market. It is creating one. The window to own this category is open **right now.**

2024 **CBUAE Open Banking framework goes live.**

Banks must expose APIs for account aggregation and payment initiation. OLFI's core data layer is now legally accessible.

2025 **UAE household debt reaches \$149B** — NPL ratio at 4.1%. Post-COVID over-borrowing + rising cost of living = record refinancing intent. Search volume for debt consolidation up 40% YoY.

2025 **Islamic fintech funding hits record highs** across GCC. Investors are backing Sharia-compliant digital finance. OLFI enters at the right moment in the funding cycle.

2026 **DIFC and ADGM sandbox capacity expanded.** Regulatory path to a fintech intermediary licence is now faster — 6–9 month sandbox-to-licence timeline established. OLFI is positioned at the front of the queue.

BUSINESS MODEL

Success fees now. Subscriptions and API licensing next.

PHASE 1

Lender Success Fee

Per closed refinance. Personal loans: 1.2–2.2% · Credit cards: 1.3–2.3% · Car loans: 0.7–1.0%. No fees to users.

3,500 DEALS Y1 · 5,500 Y2 · 8,000 Y3

Y1 Revenue
\$1,695,750
AED 6,223,402

CAC PER DEAL
AED 367

GROSS MARGIN Y1
95.3%

PHASE 2

User Subscription + Micro-fees

Freemium → premium: better-offer alerts, OLFI Score tracking, Sharia-compliant deferral (AED 5–60/reschedule). Targeting 40% of active users.

LAYERED ON PHASE 1 FROM Y2 ONWARD

TRACTION

Built, validated, and on the regulatory path.

LIVE NOW

Functional MVP prototype

Full onboarding and debt aggregation flow built on React Native / Expo. Accessible at olfi-prototype.vercel.app — demonstrating the core user journey end-to-end.

LIVE NOW

Marketing site deployed

Consumer-facing site live at olfi.vercel.app. Brand identity, positioning, and value proposition established. SEO and pre-launch waitlist infrastructure in place.

IN PROGRESS

Lender conversations underway

Active outreach to DIB, Emirates Islamic, ADIB, and specialist lenders. Partnership framework and success-fee structure validated with multiple institutions.

IN PROGRESS

DIFC sandbox application

DIFC Innovation Hub identified as regulatory entry point. CBUAE Open Banking framework alignment documented. Legal entity incorporation in Q2 2026.

COMMITTED

Sharia Advisory Board seating

Budget reserved for 2 AAOIFI-certified scholars + 1 Islamic banking practitioner. Quarterly certification audits scoped. Sharia governance structure defined.

PRE-SEED TARGET

9-month milestones

500 registered users · 3 lender API integrations live · AECB API integrated · Sandbox-ready MVP shipped · Core team of 8 on-boarded.

M1–M3

Sandbox MVP + 3 Lender APIs

AECB integration, OCR/KYC flow, first lender onboarded

COMPETITIVE LANDSCAPE

A new category. No direct competitor exists.

- The GCC's first end-to-end digital Sharia-compliant refinance platform.

FIRST MOVER

CAPABILITY	OLFI	YALLACOMPARE	ISLAMIC BANKS	BROKERS
Multi-lender debt aggregation	✓	✗	✗	✗
Sharia-compliant conversion	✓	✗	Single bank only	✗
Digital end-to-end settlement	✓	✗	Branch visit	✗
AI-driven offer scoring	✓	Basic	Opaque	None
AECB live credit tracking	✓	✗	Static	✗
Post-refinance management	✓	✗	✗	✗

THE UNCLAIMED QUADRANT

Digital + Sharia-compliant + Multi-lender + Execution

Banks cannot do it — they only sell their own paper.

Aggregators will not do it — they collect leads, not close loans.

Brokers cannot scale it — offline, manual, conventional-only.

OLFI is a new infrastructure layer — a category that does not yet exist in the GCC.

GO-TO-MARKET

High-intent acquisition. Low-cost retention.

	Google Search	High-intent keywords: 'debt consolidation UAE', 'halal finance UAE', 'buyout UAE'. Users already searching for OLFI's exact solution.
	Social + TikTok	Performance ads in expat WhatsApp groups, Facebook communities. 'Save AED 3,000/mo' before-and-after creative tested across Instagram and TikTok.
	Employer Channels	HR and payroll partnerships (Bayzat, Hafilat, Emirates HR) position OLFI as a financial wellness benefit. Zero CAC channel at scale.
	Islamic Finance Influencers	Credibility-led acquisition for Emirati and Muslim segments. Arabic-language content on Sharia-compliant debt management in the GCC.
	Free Credit Check Hook	Soft-inquiry credit health check with zero fees — no profile required for offer previews. Primary top-of-funnel activation mechanism.

CONVERSION FUNNEL

Traffic → Sign-up	>10%
Sign-up → Offer view	>50%
Offer → Acceptance	>30%
Acceptance → Funded	<15% drop
Overall conversion	~4.2%

YEAR 1 TARGETS

Total traffic (36 months)	250,000
Refinanced users	3500
CAC	(~\$100)
Loans consolidated (Y1)	AED 101M
Retention target	>60%

TEAM

Operators with the right domain depth.

Ahmed Osman
FOUNDER & CEO

UAE-based product operator leading strategy, lender partnerships, and Sharia governance. Responsible for vision, fundraising, and product-market strategy. Deep understanding of the UAE consumer finance landscape and Islamic finance ecosystem.

PLANNED ADVISORY BOARD

● **Chief Compliance & Sharia Officer**
Former Islamic bank advisor, AAOIFI-certified. Murābaḥa, Tawarruq, and fintech Sharia frameworks. (Hiring)

● **Chief Operations Officer**
UAE fintech scaler. Lifecycle operations and regulatory comms. (Hiring)

● **Fintech Regulation Advisor**
Former CBUAE sandbox participant. GCC fintech-focused investor.

Pre-seed hiring plan
Backend devs · Sharia compliance analyst · UX lead · Marketing lead · Lender relations executive

THE ASK

USD 2.5M to ship, validate, and reach escape velocity.

USD 2.5M

~Pre-Seed

18–20 months runway. Next raise: USD 12–15M Seed for GCC expansion.

USE OF FUNDS

PRE-SEED	Sandbox MVP · 3 lender APIs · 500 users · Sharia Board. Proof-of-concept data, regulatory positioning, first closed deals.	
SEED	\$12–15M · Scale UAE to 10,000+ users · 10+ lenders · KSA sandbox entry. Full commercial launch, subscription tier live, ML scoring mature.	
SERIES A	Regional expansion · Kuwait, Oman · API licensing · Own-brand products. Series A target: USD 100–500M valuation.	
10–19%	\$100–500M	10–33×
Equity stake (pre-seed)	Target valuation at Series A (Y3)	Investor return potential in 3 years
